The Hon'ble Government of India established the Indian Institute of Information Technology Agartala (IIIT Agartala) to pursue excellence in technical education and research, especially in the area of information technology, to usher in a new era of development in the nation, especially in the North-East states. The Hon'ble Ministry of Education has designated IIIT Agartala as an "Institute of National Importance" in recognition of this institution's strategic potential in starting and sustainability in technical education in North East India.

To address the difficulties of sustainable development in a knowledge-based economy, IIIT Agartala is aware of its vital role in higher education and carries with it significant obligations. The strategic thrust of this initiative aims to advance, cultivate, and expand the boundaries of sustainable job opportunities for the rural and socio-economic challenges across the entire Northeast region of India.

Information technology is the primary emphasis of IIITs, a collection of higher education institutions in India. Founded under the same Non-Profit Public Private Partnership (n-PPP) paradigm, IIIT Agartala (Tripura) is one of the IIITs in Agartala, Tripura. It is based on the public-private partnership (PPP) model. The Oil & Natural Gas Corporation (ONGC) Ltd., the State Government of Tripura, the Government of India, and North Eastern Electric Power Corporation Limited (NEEPCO) Ltd. are the project's partners. The Department of Computer Science and Engineering at the temporary campus of the mentor institute, NIT Agartala, where all of NIT Agartala's facilities are available to IIIT Agartala students, marked the beginning of the Institute's operations in the academic year 2018–19.

This day may be noted as a Red Letter Day in the history of both the State of Tripura and Tripura Engineering College (TEC).

In 1965, NIT Agartala (formerly known as TEC) was founded, incorporating the three conventional engineering disciplines of mechanical, electrical, and civil engineering. When it first opened, it was associated with Calcutta University and shared Bengal Engineering College's curriculum and testing procedures (now IEST, Shibpur). The Institute formally became associated with Tripura University upon its founding. The All India Council for Technical Education (AICTE) approved the Institute. The Institute launched a computer science and engineering degree program in the 1999–2000 academic year. Three additional

courses—Electrical and Electronics, Production, and Transportation Engineering—were added to meet the demand for technical personnel in the 2005–2006 academic year.
